

## Office Profile

Making your business space work harder

HALTERMANN  
CARLESS

The open plan section of the office with the centralised storage.

The StorageWall was built to provide additional storage as per the client's brief.

# HALTERMANN CARLESS

Haltermann Carless appointed Office Profile to bring some vitality back into their new Leatherhead office.

The client contacted Office Profile to design an attractive environment, utilising the interesting shape of the floor to the best advantage. One request was that they needed some form of centralised storage to avoid anyone having to walk too far from their desk.

Our Design Team focused initially on the space planning, plotting where the offices and meeting rooms could fit within the unique floor space. The large open plan section of the main office with large lighting helped to make the area very open and bright.

We used partitioning with frameless glass to create the separate rooms. Throughout the office space we fitted a patterned grey carpet and provided Infinity desks and tables with black goalpost legs to complement the carpet.

The teapoint with durable vinyl tiling in a wood graphic.

- LOCATION: LEATHERHEAD, SURREY
- VALUE: £200,000
- FLOOR AREA: 4,000 SQ FT
- DURATION: 5 WEEKS
- STAFF NO: 48

One of the offices - glass partitioning with manifestation and a dark grey frame.

An Infinity table with black goalpost legs in one of the meeting rooms.

To fulfil the client's request for centralised storage, we added a row of cupboards in the middle of the office.

To add additional storage, we built a large StorageWall in white.

In the teapoint area, we fitted vinyl tiles in a wood graphic and supplied cupboards in a white gloss, with a black worktop. We included integrated appliances to maximise the space.
