- DURATION: 8 WEEKS
- STAFF NO: 106

Manifestation was used on the glass partitioning to show who occupied each office

LIBERATA

Liberata is a leading business process services provider to Government departments and the public sector. They were moving their head office to High Holborn and incorporating another division, Trustmarque Solutions Limited. Office Profile successfully tendered against 5 other companies to carry out the CAT B fit-out of their new head office

The CAT B fit-out included the creation of several meeting spaces for 68 members of staff, along with offices, reception area, teapoint and communications room. Multiple meeting spaces and offices were created using partitioning, including faceted acoustic glass to alleviate noise disturbance from other areas. Manifestation was used on the glass to show the name of who occupied each office and to create some privacy. Comfortable and stylish chairs with flexible backs for ergonomic support were supplied.

The canteen featured a clean, white design that was contrasted by bright orange chairs.

The bistro tables and spacious kitchen provides a calming breakout area for staff.

Audio visual points were integrated into rooms to allow for the use of TVs and to cater for presentations and staff meetings. Works also included installing air conditioning systems and a large bespoke StorageWall area for convenient and streamlined storage.
