INNOVATION  
GROUP

Spherical panelling in the reception area along with a backlit Service Innovation Group logo

Breakout and teapoint area, featuring stylish banquette seating upholstered in a magenta fabric

# SERVICE INNOVATION GROUP

Service Innovation Group approached Office Profile to provide the 'wow' factor in their 2,000 sq ft open plan office in Watford.

Office Profile was required to refurbish the whole floor which included the reception area, a meeting room and the Director's office as well as creating a new tea point with breakout seating.

In the reception area, we added white spherical panelling to one wall to add some dimension. The client's logo was installed on top of the panelling with back lit LED lighting. We created a large grey and white feature wall with positive wording to inspire staff. We provided Infinity desks with Momo task chairs which are fully adjustable and good for ergonomics.

Office Profile designed and installed magenta, yellow and grey flooring by Milliken to add a splash of colour and vinyl graphics was added to some of the walls and glass to tie everything in together.

Meeting room visible from the reception area

- LOCATION: WATFORD, LONDON
- VALUE: £90,000
- FLOOR AREA: 185 SQM
- DURATION: 4 WEEKS
- STAFF NO: 25

Roger Thomson, Project Consultant at Office Profile, demonstrating the ergonomics of the chairs

The breakout area featured stylish banquette seating, upholstered in striking magenta fabric. The teapoint was fully equipped to meet the needs of the client, complete with built-in appliances.

In the Director's office, we supplied Quadra soft seating along with a round table and grey seating for meetings. We feel that we have delivered a creative environment and brought their office back to life, it definitely has the 'wow' factor that they required!
