PROFESSIONAL SERVICES FIRM

Office Profile were appointed to complete a CAT B fit-out for their office in West Sussex.

The client wanted to relocate from their traditional office across multiple floors to an agile workspace. The refurbishment was managed by Rider Levett Bucknall who we worked closely with to deliver the project.

For the office fit-out we centralised collaboration zones within an open plan design. A folding acoustic wall provides flexibility as it can separate a room into two meeting rooms or be folded to create one large space. A mildly industrial design, inspired by the polished circular columns within the building, was achieved in the breakout and collaboration areas by removing the suspended ceiling. In the reception area, a timber slat wood feature wall incorporates a glass display cabinet which house historic fire insurance marks.

We created a range of working environments such as focus rooms for private meetings which are separated by glass partitioning. We also included

A folding acoustic wall can separate two meeting rooms or be folded to create one large space

- LOCATION: WEST SUSSEX
- VALUE: UNDISCLOSED
- FLOOR AREA: 6400 SQ. FT
- DURATION: 9 WEEKS
- STAFF NO: 50+

Lockable storage facilities behind desking

Modern kitchen inspired by an industrial design

collaboration spaces and acoustic pods for quiet working. To add splashes of colour, we specified patterned wallpaper, graphics of local landmarks and a living moss wall. For the furniture, we selected durable and contemporary products such as our modular mobile meeting tables, banquette seating and collaboration tables with desktop power and colourful soft seating.
