

Case Study: Electronics Company

A leading semiconductor solutions company based in Redhill, Surrey, appointed Office Profile to do a full CAT-B fit-out to create a flexible working space.

The company wanted to redesign their space to encourage staff back into the office after a lengthy time of working from home. The brief for the redesign included providing multiple work areas for staff, depending on the task at hand.

Location:
Redhill, Surrey

Floor Area:
406 sq. ft

Duration:
6 weeks

Project Value:
£208,000
