

Case Study: Caravan & Motorhome Club

Caravan and Motorhome Club is renowned for helping campers find locations from their list of sites across the UK and Europe.

The Club was looking to reduce their Head Office from two buildings to one. They were keen for the office space to reflect the changes in pattern of employee attendance Post-Covid19 and the impact it would have on their working practices. The key factor and central to the design scheme, was to enable staff to select the appropriate area for specific tasks. We created slick, casual environments, for meetings and 'huddles' with colleagues and management, through a combination of soft, modern seating.

Location:

East Grinstead, West Sussex

Project Value:

£340,000

Duration:

11 weeks

Staff No:

350
